

Join our workshop (Room 023) to learn about the latest applications for mass spectrometry in Metabolomics, Forensics and Food analysis.

The workshop on Wednesday 14th March at 1pm will cover the following topics:

- Invited Speaker from Prof. Krämer : Special Weapons and Tactics in Forensics – Failure Is Not an Option
- SWATH® Acquisition, a Unique Approach for Untargeted Metabolomics Applications
- Advantages of Using MS/MSALL with SWATH Acquisition on a High Resolution QTOF Instrument for Confident Compound Identification in Relation to Food Residue Analysis

Please complete the form [Seminar Registration](#) to receive the presentations and exclusive related content after the event.
